Programme Report: Awareness Camp on Conservation of Forest

Date: May 16th, 2025

Venue: Silapathar Science College Campus, Silapathar

**Sponsored by: Assam Science Technology & Environment Council,
Guwahati**

A day-long programme was organized on May 16, 2025, at Silapathar Science College, focusing on the conservation of bioresources in Northeast India. The event, participated by Eco Club members, aimed to raise awareness about the importance of preserving the region's rich biodiversity.

Key Activities:

1. Orchid Conservation and Plantation Programme: The college's orchidarium and campus witnessed a significant initiative, with over 110 native orchid varieties being conserved on trees and within the orchidarium. Students planted numerous orchid saplings rescued from degraded habitats in Dhemaji district.
2. Cleaning Programme: A thorough cleaning drive was conducted in the orchidarium and college campus to maintain a pristine environment.
3. Orchid Arrangement: The orchids within the orchidarium were meticulously arranged to showcase the beauty and diversity of these species.

Expert Talks:

Two esteemed resource persons, Dr. Zakir Hussain Mallik (Assistant Professor, PG Department of Botany) and Dr. Pinku Satnami (Assistant Professor, PG Department of Zoology), delivered insightful talks on the importance of conservation and sustainable practices.

The programme successfully promoted awareness about the significance of preserving Northeast India's bioresources, particularly orchids, and encouraged students to take an active role in conservation efforts.
