

ACTION TAKEN REPORT ON STUDENTS FEEDBACK

Department of Chemistry
Silapathar Science College

For instructional support and a comprehensive way to monitor change and progress across a variety of objectives and goals the following action plan were taken in different issues by the department of Chemistry. Feedback offer important perspectives for evaluating academic programs and student services. They provide us the inputs regarding improvement in facilities and employability of our students. We appeal our students to provide their sincere feedback on curriculum. We have received student feedback on syllabus, infrastructure and curriculum. Based on comments of the students feedback the following actions were taken for better improvement of students.

SI No.	Feedback	Action taken
1	Well equipped laboratory with advanced instruments and sufficient chemicals can be made available.	The matter has been intimated to higher authority for approval.
2	More books, journals, reading material, library internet facility and other facilities are needed.	Our college library is well-equipped with N-List knowledge portal which covers more than two lacs books and six thousand journals. The entire library collection is computer catalogued and searchable through the Online Public Access Catalogue (OPAC). The Internet facility is available for students in the Library. Few scientific journals are subscribed for all departments in the college library. Almost all course related books and journals are available in the library. Moreover, a list of reference books were prepared and sent to the Library Committee through HoD of each department.

3	Pure drinking water.	The college authority has been constructing a central pure drinking water plant for providing clean and pure drinking water to the students and all staffs. At present, college supplies drinking mineral water bottles for every department.
4	Improve laboratory and college infrastructure.	The matter has been intimated to higher authority with formal application.
5	Improve learning processes.	On the basis of the students' feedback, it was decided to make the teaching more practical based. The faculty members of the department were asked to design their knowledge imparting method for better improvement of students.
6	Increase collaboration across departments.	A MoU had been signed with Botany department and two groups of selected students had been formed for a project on "Herbal Medicine". The student's eagerly performing surveys in different villages of Dhemaji district till today.
