DEPARTMENT OF PHYSICS

STUDENT'S FEEDBACK AND ACTION TAKEN

Silapathar Science College always thrives for creating an atmosphere of excellence in providing quality education and maintaining good academic ambience. Think Scientifically, Act Scientifically is the motto of the institute.

Keeping this in mind, student's satisfaction is also given equal importance. Grievances, if any, is automatically, being taken into consideration and sorted out within no time. In this regard, a student's feedback in online form was carried out to extract the flaws and shortcomings which the institute possesses and its need for rectification. This will provide the institute to work upon such areas and consolidate the same.

Here we discuss some of the important issues put forwarded by the students and action taken against to resolve such shortcomings.

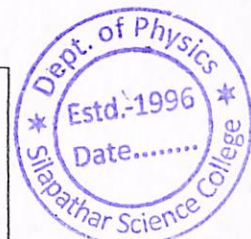

Sl No	Student's Feedback	Action Taken
1	Shortage of Practical Instruments	Department of Physics tries every possible way to fulfil students' expectation in providing theoretical as well as Practical Knowledge leaving no stone unturned. Every year we demand the enlisted practicals for every semester and authority also tries to fulfil the same. Still there are lots of instruments to be installed and that has been intimated to the higher authority for purchase.
2	Improvement of Library	Silapathar Science College Library encompasses large volumes of books and Journals to gain plethora of knowledge. It

		is furnished with N-List, an online knowledge portal consisting of more than 2 Lakhs books and 6 thousand Journals. The library collection can be access through OPAC (online public access catalogue) procedure. Student can access the different education portal through internet facility provided within. Some of the well-known reference books list has been prepared and has been sent for the library's approval.
3	Infrastructure development especially in laboratory and Computer Facility.	The department is lagging behind in its laboratory and computer facility upgradation. Yet the matter has been intimated to the higher authority for looking into the matter.
4	Outdoor and Indoor sports facility	The matter has been taken into account and intimated to the authority to look into it.
5	Digital Classroom	Along with the conventional method of teaching-learning procedure, nowadays digital learning method has also taken an important place. There is a need for digital and smart classroom for teaching. The matter has been taken seriously and has been intimated to Academic in Charge, IQAC and higher authority for the needs of digital classroom and commencement of digital classes.
6	Career development counselling	The matter has been taken into account and urge IQAC and other higher authorities for conduction of such career development counselling programmes.
7	Punctuality of faculty members	All the faculty members has been informed about the matter and asked to be punctual for the betterment of the students.
